

JOIN US IN CRAFTING A BRIGHTER FUTURE

With the vision of redefining the idea of Life Insurance in Bangladesh through innovation and a new spirit, Shanta Life is set to commence its operations. Our ambition is to build a devoted team for delivering best-in-class products and services that will transform the industry. If you are driven by the pursuit of excellence and wish to work with a dynamic team, we invite you to be a part of our journey.

Full Stack Engineer

Key Responsibilities

- Design, develop and maintain scalable, secure front-end and back-end solutions for web and mobile applications, ensuring seamless user experiences
- Integrate third-party APIs, develop and maintain RESTful APIs and manage database design, optimization and data integrity
- Collaborate with cross-functional teams, including designers and product managers, to translate business requirements into technical solutions and participate in code reviews
- Optimize application performance for speed, scalability and reliability while monitoring and troubleshooting issues
- Write and maintain tests (unit, integration, end-to-end) and implement CI/CD pipelines for automated testing and deployment in cloud environments
- Stay updated on emerging technologies, promoting innovative solutions like containerization and serverless computing

Key Requirements

- Minimum Bachelor's degree in Computer Science, Software Engineering or a related field
- 3 to 5 years of experience as a Full Stack Developer, Software Engineer or similar role
- Proficiency in front-end technologies such as HTML, CSS, JavaScript, and modern frameworks like React, Angular, or Vue.js
- Expertise in back-end technologies, including Node.js, Python, Ruby, Java, or .NET
- Strong understanding of cloud platforms and database management
- Familiarity with microservices architecture and containerization tools such as Docker and Kubernetes

Job Location : Dhaka

Deadline : 30th August, 2025
